

'The protection of children in tourism a shared responsibility'

Over two million children are the victims of sexual exploitation around the world every year. It's a crime that is also facilitated by today's tourist travel and infrastructure. It is our shared responsibility to protect children and adolescents from sexual exploitation in tourism.

The expected outcomes of the follow-up workshop in Cochin are as follows:

- Participating management of our hotel partners will feel prepared to implement comprehensive measures for child protection within their operations.
- Our hotel partners are encouraged to sign the child protection code within a year.

The workshop is supported by EQUATIONS, the local affiliate of ECPAT international in India.
